Wage Earners Should Be Represented on Railroad Boards of Directors

By Senator ALBERT B. CUMMINS of Iowa

The permanent railroad policy bill submitted to the senate by the interstate commerce committee has these major features: Provisions for termination of government control of the railroads; their return to private ownership and operation under rigid federal control and consolidation into region systems; prohibition of strikes and lockouts of employees; joint committee on wages; representation of employees on boards of directors.

My personal opinion is that the wage earner should be represented on the boards of directors of the railroads. Every member of this committee believes that the classified personnel should participate in the management of the railroads. By including their spokesmen among the directors their peculiar problems could be worked out by those most concerned and best informed. If this were done I believe most of their controversies would be adjusted before they reached the point of publicity.

The measure contains none of the fundamentals of the Plumb plan. The Plumb plan is the soviet principle, with very little concealment. The soviet society is one in which the wage-earning class of a given industry or community exercise complete control over that industry or community. The program of the railroad brotherhoods looks to the control of the transportation industry by its wage-earning personnel.

Our industrial civilization is founded on the relationship between employer and employee, and I do not believe it can be succeeded by any other.

The plan of the brotherhoods would destroy that relationship so far as the railroads are concerned, and we cannot assume that it would be attempted only in that industry.

MR. CURTIS EXAMINES HIS RECORD

Senator Charles Curtis of Kansas is probably the only member of congress who has ever examined his political record in the famous card index of the National Woman's party. Miss Maud Younger, the party's legislative chairman, has graded him 100 per cent in favor of woman suffrage. Miss Younger, shown in the foreground of the photograph, has a card for every member of the national congress and one for each member of every state legislature. On these cards are listed the full facts of their lives—social, business and political.

FRANCE NEEDS MILLIONS

PARIS, Oct. 24.—Figures furnished by M. Klotz, Minister of Finance, in a concluding debate on finance in the French Chamber of Deputies, show that it will be necessary for France to borrow about two billion francs a year in the course of the next few years in order to balance its budget. The bill authorizing the first loan, M. Klotz stated, would be presented in January or February.

DEATH OF 3 FRENCH OFFICERS

Who Wrote for German Paper.

PARIS, Oct. 19.—The trial of various persons who contributed to the Gazette Des Ardennes, published during the war by the German Staff in the French language, ended today.

Of the defendants, who were charged with giving intelligence to the enemy, Second Lieut. Roger Herve, Louis Laverne, and Henri Crookel, were sentenced to death. The last named has fled the country.

Seven of the defendants received sentences ranging from five to seven years. Yvonne Vies, an eighteen-year-old girl, who wrote three articles for the Gazette, was sentenced to five years' imprisonment.

TOO MUCH WATER

Two Feet On Street During Record Rain Storm

DAYTONA, Oct. 23.—Many streets in the residential section of Daytona were flooded to a depth of two feet last night and early this morning by the heaviest rain ever recorded here.

A fall of 6.95 inches was registered during the night and water stood in the streets all over town, the greatest inundation being in the residential section. The water had subsided today. There was no estimate of monetary damage, which, however, was not regarded as large.

TO SELL ARSENAL PLANT.

WASHINGTON, Oct. 23.—United Press)—Bids will be opened November third at the Edgewood Arsenal Monday for the sale of buildings at the Arsenal Plant at Kingsport, Tenn. it was announced today.

GERMANS COLONIZING MEXICO

Evidences That Carranza's Government Is Welcoming It

CITY OF MEXICO, Oct. 20.—Concrete evidences of German colonization plans for Mexico was revealed here today with the announcement of an enterprise for the irrigation of 200,000 hectares of land in the Fuerte River valley, in the State of Sinaloa, where thousands of German emigrants are expected to buy small parcels of land on a twenty-year-payment plan.

The corporation is being floated by Jose Makany, a Mexico City capitalist, with the support of General Ramon Iturbe, Governor of Sinaloa. It is proposed to construct a dam at St. Blas, securing from the Government a concession for the use of enough water from the Fuerte River for the proposed colony. The land is declared to be extremely fertile and the plan is being backed by German bankers here.

Until a few months ago the water concession for the Fuerte valley was held by the United Sugar Companies of Sinaloa, headed by Benjamin F. Johnson, of Chicago, Ill. This concession, granted twenty-five years ago, was for the use of 75 per cent of the river's flow, but this, it is declared, has been decreased to eight cubic meters per second. Promoters of that present irrigation project declare the old concession was reduced because of the opposition of many landholders along the Fuerte River to the control by the companies of 75 per cent of the water, while only 5 per cent of the land could be irrigated.

Fresh chile con-carne daily at John Mallem's place. First street.

STATE HELPS WITH SERUM

Pays Half of Cost of Enough to Inoculate Thirty Hogs

TALLAHASSEE, Oct. 24.—(Special.)—The State Live Stock Sanitary Board has closed a contract for the purchase of anti-hog-cholera serum and virus under the provisions of the law passed by the last legislature at ninety cents per one hundred cubic centimeters, at which price it will be sold by the Board to hog raisers and farmers of this State. This is a saving of fifteen cents per one hundred cubic centimeters over the lowest price made in the first bids received, which were rejected as unsatisfactory. This price will mean a saving of forty per cent of the price that has heretofore been charged by most of the reliable manufacturers.

The law provides that any hog owner can secure an amount up to 1,500 cubic centimeters, which is sufficient to inoculate thirty well hogs of one hundred pound weight at one-half cost, the other half being paid for by the State. All applications for serum and virus for which the State pays one-half must be made upon regular forms of application which may be had from any Federal or State veterinarian or other person authorized to administer the same and must be approved by such authorized person, and in all cases, must be accompanied by Post Office or express money order or cashier's check in an amount sufficient to pay for same.

Just Interested.

One day Jane was looking at the death notices and when asked why she was reading them she replied: "I want to see if Uncle Bin is dead yet."

CINCINNATI WINNING FIRST WORLD SERIES GAME

The victory of the Cincinnati Reds over the Chicago White Sox in the first game of the world series was a shock to the Sox fans. The photograph shows Ruether, the Reds' pitcher, clinching the game by scoring in the fourth inning after making a three-bagger.

Find Out Where Your Money Goes

Nine out of ten wage-earners get more money than they actually need. But they never know where it has gone when another pay day rolls 'round. It just disappears.

Begin now to keep an account of your expenses. Put down every cent you spend and what you spend it for. Next week or month do without the worthless things you bought with your last earnings. Put the balance in Thrift and War Savings Stamps. Intelligent saving is the first step towards independence and prosperity.

Lines to Be Remembered.

The sight of a battlefield after the fight is enough to inspire princes with a love of peace and a horror of war.—Napoleon I.

Watch the Saucer.

When watering house plants if the water runs in the saucer it is a good sign; if not, something is wrong with the plant.

Isn't This Fair?

Ask your grocer for

HONEY BOY
